

- central memory CD8-positive, alpha-beta T cell
- CD8-positive, alpha-beta T cell
- CD14-positive, CD16-negative classical monocyte
- CD4-positive, alpha-beta T cell
- germinal center B cell
- mature conventional dendritic cell
- immature conventional dendritic cell
- memory B cell
- monocyte
- CD8-positive, alpha-beta thymocyte
- CD4-positive, alpha-beta thymocyte
- macrophage
- CD38-negative naive B cell
- regulatory T cell
- mature neutrophil
- mature eosinophil
- CD34-negative, CD41-positive, CD42-positive megakaryocyte cell
- conventional dendritic cell
- naive B cell
- class switched memory B cell
- plasma cell
- osteoclast
- thymocyte
- erythroblast
- myeloid cell
- segmented neutrophil of bone marrow
- neutrophilic myelocyte
- neutrophilic metamyelocyte
- band form neutrophil
- mononuclear cell of bone marrow
- precursor B cell
- hematopoietic multipotent progenitor cell
- effector memory CD8-positive, alpha-beta T cell
- effector memory CD4-positive, alpha-beta T cell
- central memory CD4-positive, alpha-beta T cell
- effector memory CD8-positive, alpha-beta T cell, terminally differentiated
- peripheral blood mononuclear cell
